Commissioner Indian Affairs

Washington DC

Sir

In Compliance with Departmental
Letter of June 17-1887 I forward today in
separate packages the Census of
Indians on the Reservations in
Charge of this Agency. It was ab-
solutely impossible to get accurate
account of those living off the Reservations.
The number as shown for the San Xavier and
Gila River Reservations is about one half the
number that inhabit those Reservations.
They are absent this season of the year
gathering Cactus Fruit etc. The number
on this (the Gila River Reservation) is reduced
about Fifty thousand from the
estimated number heretofore reported
but the Census are correct. Very Respectfully
Owen A Howard

United States Indian Service,

Agency,

Sacaton, July 25, 1890.

Hon. Commissioner of Indian Affairs,
Washington, D.C.

Sir:-

I have enrolled the Indians who live on the reservations of this agency and the number is 5099. The Indians who do not live on any reservation are not enrolled, and the most of these inhabit a region south of the Southern Pacific R.R. in this territory. Fully 90 per cent of these people are Papagos, and, I have no idea of the number, but I see in the reports that about 7000 is the estimated number. These Papagos have never been enrolled, and, the number reported heretofore was "guessed at." I have employed six educated Indians to secure that census, and a part of these are in the field now, but what the result will be I am unable to declare positively.

The chief difficulty is (at this season of the year) to get water for the horses, and, while the

thermometer is measuring 113° in the shade, and 130° in the sun, it is so hot that a team can not be driven very far, without water. I have sent out these Indian enumerators with carriages containing feed and water for teams, and food for themselves; they are visiting the chief villages where they must leave carriage and go on horse back into the mountains and other place where they can not take the carriages.

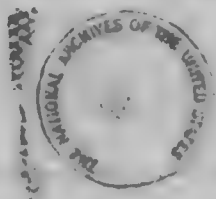

I mention these difficulties to enable you to know why this census has never been taken.

If I am compelled to estimate the number, it will not exceed 4000, and I doubt very much that this number can be found — Hence, ^{the number} ~~the number~~ ~~it~~ would not in my present census and estimate exceed 9000; even the entire number belonging to this Agency.

Very Respectfully Yours.

C. F. Crouse.

Hon. T. J. Morgan,
Commissioner of Ind. Affairs,
Washington, D. C.

Sir:—

I have taken the Census of the Indians of this Agency, excepting about 3000 who do not live on any reservation. This work has been done about two months, and I have been waiting during that time for its inspection by a Special Agent as ordered. This inspection was made and favorably reported last week, and I herewith submit it to you for approval.

Very respectfully yours,

C. W. Crouse

United States Indian Service,

Pima

Agency, Ariz.

Sacaton, July 31, 1892.

Hon. T. J. Morgan,
Commissioner of Indian Affairs,
Washington, D. C.

Sir:-

Pursuant to law and request I have taken the Census of the Indians who live on the reservations of this agency, and I have the honor to submit the result following:

1. Pimas of the Pima reservation on the Gila river:

(a) Males - 1942 } Total - 3780.
(b) Females - 1838

2. Pimas of the Pimand Maricopa reservation on Salt river:

(a) Males - 323 } Total - 641.
(b) Females - 318

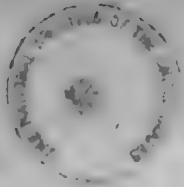

3. Maricopas of the Pimand Maricopa reservation on Salt river:

(a) Males - 167 } Total - 315.
(b) Females - 148

4. Papagos of the Papago reservation at San Xavier, Ariz. (Allottees)

(a) Males - 184 } Total - 363.
(b) Females - 179

2.

I have enumerated 5099 ^{Indians} found on the reservations of this agency, and I made an effort to secure the names of those Papagoes who belong to this agency but who do not live on any reservation. This tribe inhabits a large scope of mountain and desert country south of the Southern Pacific R.R. and last week I made an effort to enumerate those Indians; and, after having four scribes in the field a week, it was abandoned.

The enumerators say that those Indians thought that there was something wrong about the business, and they refused to give their names. After securing the names of 340 Indians there, they returned to the agency saying that the Census could not be taken until until a general conference could be held among the petty chiefs. Very few of those Indians ever come to the agency and, they do not approach the standard of excellence of the Indians who live on the reservations. No census of those Papagoes has ever been taken,

31070

and the reports of my predecessors must have been "guessed at." Reports say that there are from 6000 to 8000 Indians living off the reservations of this agency, but, judging of the scope of country from which the 340 above named was secured, I think that a reliable estimate would be 3000, and in making the school statistics, I will make the proportions in regard to the number of "Children of school age," "Children under 1 year" etc., on the basis of those enumerated.

On the enumeration schedules you will find a great many names alike, but it represents as many Indians as the numbers indicate.

By tribes, I submit the following to represent the Indians of this Agency:—

- | | |
|------------------------------|--------------------------------|
| I. Pimas. (1) Males—2265 | } Complete enumeration—4421. |
| (2) Females—2156 | |
| II. Papagos. (1) Males—1763. | } Enumerated & estimated—3363. |
| (2) Females—1600 | |

Total ----- 4386.

Excepting the 352 Papago allottees who own the Papago reservation at San-Xavier, the number is estimated. Special Agents Wood, Snyder and White

concluded that the number of Papagoes is 5000.

Respectfully,

O. M. Crouse

U.S. Indian Agent.

of Indian Affairs,
Washington, D.C.

to your letter June 6, '91, "A", I will say that
law fully and faithfully in taking the census
this Agency means a great deal of work. There
usand Indians belonging to this agency, if those
living off of the reservation are included.
the Papagoes have never been taken, although sev-
been made. I have about 5000 reserva-
e have done a great deal of work for Papago
o reservation or home except the sandy cacti
hern third of this territory.
me about two months to get a reliable census of
ve on the reservations of this Agency.

Very respectfully yours,

U.S. Indian Agent.
